

#### Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations SDS ID: 31399 Issue date: 5/2/2023 Revision date: 7/5/2023 Supersedes: 5/2/2023 Version: 1.1

#### **SECTION 1: Identification**

1.1. Identification

Product form Product name : Mixture

: Factory Racing Oil Anti-Wear ISO 46 Hydraulic Fluid

1.2. Recommended use and restrictions on use

No additional information available

1.3. Supplier

Factory Racing Parts 900 Mendelssohn Ave. N. Golden Valley, MN , 55427 USA T 1-(800)-636-7990

1.4. Emergency telephone number

Emergency number

: 1-800-424-9300 (CHEMTREC)

#### SECTION 2: Hazard(s) identification

2.1. Classification of the substance or mixture

#### GHS US classification

Not classified

2.2. GHS Label elements, including precautionary statements

#### GHS US labeling

No labeling applicable

2.3. Other hazards which do not result in classification

No additional information available

2.4. Unknown acute toxicity (GHS US)

No additional information available

#### **SECTION 3: Composition/Information on ingredients**

#### 3.1. Substances

Not applicable

3.2. Mixtures

Name	Product identifier	%	GHS US classification
LUBRICATING OILS (PETROLEUM), CLAY-TREATED SPENT	CAS-No.: 64742-50-3	≥ 75	Not classified

\*Chemical name, CAS number and/or exact concentration have been withheld as a trade secret

#### Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Full text of hazard classes and H-statements : see section 16

SECTION 4: First-aid measures		
4.1. Description of first aid measures		
First-aid measures general	: Call a poison center/doctor/physician if you feel unwell. First aider: Pay attention to self- protection.	
First-aid measures after inhalation	Remove person to fresh air and keep comfortable for breathing. Seek medical attention if ill effect or irritation develops.	
First-aid measures after skin contact	: Seek medical attention if ill effect or irritation develops. Wash skin with plenty of water.	
First-aid measures after eye contact	: Rinse eyes with water as a precaution. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Rinse cautiously with water for several minutes.	
First-aid measures after ingestion	: Call a poison center/doctor/physician if you feel unwell. Do not induce vomiting. Rinse mouth. If you feel unwell, seek medical advice.	
4.2. Most important symptoms and effects (acute and delayed)		
Symptoms/effects	: Not expected to present a significant hazard under anticipated conditions of normal use.	
4.3. Immediate medical attention and specia	I treatment, if necessary	

Treat symptomatically.

SECTION 5: Fire-fighting measures			
5.1. Suitable (and unsuitable) extinguishing r	nedia		
Suitable extinguishing media	<ul> <li>Dry chemical powder, alcohol-resistant foam, carbon dioxide (CO2). Water spray. Dry powder.</li> <li>Foam. Carbon dioxide.</li> <li>Do not use a heavy water stream.</li> </ul>		
5.2. Specific hazards arising from the chemical			
Fire hazard Hazardous decomposition products in case of fire	<ul> <li>vapors may cause fire/explosion if source of ignition is present. Watch out for invisible flames.</li> <li>The vapors are denser than air and may travel along the ground. Distance ignition possible.</li> <li>Toxic fumes may be released.</li> </ul>		
5.3. Special protective equipment and precautions for fire-fighters			
Firefighting instructions	<ul> <li>Evacuate area. Use water spray or fog for cooling exposed containers. Do not allow water to enter the vessels, a violent reaction may occur. Eliminate all ignition sources if safe to do so.</li> <li>Fight fire from safe distance and protected location. In case of fire: Stop leak if safe to do so.</li> <li>Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing. Do not enter fire area without proper protective equipment, including respiratory protection.</li> </ul>		
Other information	High temperature decomposition products are harmful by inhalation. On exposure to high temperature, may decompose, releasing toxic gases.		

SECTION 6: Accidental release measures		
6.1. Personal precautions, protective equipment and emergency procedures		
General measures	: Clean up any spills as soon as possible, using an absorbent material to collect it. Prevent from	

entering sewers, basements and workpits, or any place where its accumulation can be

dangerous. Eliminate every possible source of ignition. Evacuate area.

#### Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

6.1.1. For non-emergency personnel	
Protective equipment Emergency procedures	<ul> <li>Avoid contact with skin, eyes and clothing. Wear recommended personal protective equipment.</li> <li>Ventilate spillage area. Evacuate unnecessary personnel. Do not breathe vapors. No open flames, no sparks, and no smoking.</li> </ul>
6.1.2. For emergency responders	
Protective equipment	Do not attempt to take action without suitable protective equipment. Wear recommended personal protective equipment. For further information refer to section 8: "Exposure controls/personal protection".
Emergency procedures	: Prevent from entering sewers, basements and workpits, or any place where its accumulation can be dangerous.
6.2. Environmental precautions	

Avoid release to the environment. Do not allow to enter drains or water courses. Notify authorities if product enters sewers or public waters.

	ontainment and cleaning up
For containment	: Stop leak, if possible without risk. Contain any spills with dikes or absorbents to prevent
	migration and entry into sewers or streams.
Methods for cleaning up	: Take up liquid spill into absorbent material. Soak up with inert absorbent material (for example
	sand, sawdust, a universal binder, silica gel). Take up mechanically (sweeping, shoveling) and
	collect in suitable container for disposal. This material and its container must be disposed of in a
	safe way, and as per local legislation. Clear up rapidly by scoop or vacuum.
Other information	: Dispose of materials or solid residues at an authorized site.

6.4. Reference to other sections

For further information refer to section 8: "Exposure controls/personal protection". For further information refer to section 13.

SECTION 7: Handling and storage		
7.1. Precautions for safe handling		
Additional hazards when processed Precautions for safe handling	<ul> <li>Not expected to present a significant hazard under anticipated conditions of normal use.</li> <li>Wear personal protective equipment. Ensure good ventilation of the work station. Do not breathe vapors. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.</li> </ul>	
Handling temperature Hygiene measures	<ul> <li>≤ 140 °F</li> <li>Do not eat, drink or smoke when using this product. Always wash hands after handling the product. Wear personal protective equipment. Take off immediately all contaminated clothing and wash it before reuse. Separate working clothes from town clothes. Launder separately.</li> </ul>	
7.2. Conditions for safe storage, including any incompatibilities		
Storage conditions	: Store in a well-ventilated place. Keep cool. Store in a well-ventilated place. Keep container tightly closed. Keep only in original container. Keep away from heat, hot surfaces, sparks, open flames	

#### **SECTION 8: Exposure controls/personal protection**

#### 8.1. Control parameters

Factory Racing Oil Anti-Wear ISO 46 Hydraulic Fluid	
USA - ACGIH - Occupational Exposure Limits	
ACGIH OEL TWA 5 mg/m <sup>3</sup> Contains highly refined petroleum oil	

and other ignition sources. No smoking.

#### Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

USA - OSHA - Occupational Exposure	Limits
OSHA PEL (TWA) [1]	5 mg/m <sup>3</sup> Contains highly refined petroleum oil
OSHA PEL (STEL) [1]	10 mg/m <sup>3</sup> Contains highly refined petroleum oil
LUBRICATING OILS (PETROLEUM	), CLAY-TREATED SPENT (64742-50-3)
No additional information available	
8.2. Appropriate engineering control	ols
Appropriate engineering controls	: Ensure good ventilation of the work station. Emergency eye wash fountains and safety showers
Environmental exposure controls	<ul><li>should be available in the immediate vicinity of any potential exposure.</li><li>Avoid release to the environment.</li></ul>
8.3. Individual protection measures	s/Personal protective equipment
Personal protective equipment: Wear recommended personal protective e	quipment
	quipmont.
Hand protection:	
Hand protection: Protective gloves. nitrile rubber gloves	
•	
Protective gloves. nitrile rubber gloves	
Protective gloves. nitrile rubber gloves Eye protection:	
Protective gloves. nitrile rubber gloves Eye protection: Safety glasses. Chemical goggles or safe Skin and body protection:	
Protective gloves. nitrile rubber gloves Eye protection: Safety glasses. Chemical goggles or safe Skin and body protection:	ty glasses

#### **SECTION 9: Physical and chemical properties**

9.1. Information on basic physical and chemical properties

Physical state Color Odor Odor threshold pH Melting point Freezing point Boiling point Flash point Relative evaporation rate (butyl acetate=1) Flammability (solid, gas) Vapor pressure Relative vapor density at 20°C	<ul> <li>Liquid</li> <li>amber</li> <li>characteristic</li> <li>No data available</li> <li>No data available</li> <li>Not applicable</li> <li>No data available</li> <li>No data available</li> <li>&gt; 212 °C</li> <li>No data available</li> <li>Not applicable.</li> <li>&lt; 0.013 kPa</li> <li>No data available</li> </ul>
Relative vapor density at 20°C	: No data available

#### Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Relative density	: 0.877 @ 15°C
Solubility	: No data available
Partition coefficient n-octanol/water (Log Pow)	: No data available
Auto-ignition temperature	: No data available
Decomposition temperature	: No data available
Viscosity, kinematic	: 46 mm²/s @ 40°C
Viscosity, dynamic	: No data available
Explosion limits	: No data available
Explosive properties	: No data available
Oxidizing properties	: No data available

9.2. Other information

No additional information available

#### **SECTION 10: Stability and reactivity**

#### 10.1. Reactivity

The product is non-reactive under normal conditions of use, storage and transport.

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use. None under normal use.

10.4. Conditions to avoid

None under recommended storage and handling conditions (see section 7). High temperature.

10.5. Incompatible materials

Acids. Oxidizing agent.

10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced. fume. Carbon dioxide. Carbon monoxide.

#### **SECTION** 11: Toxicological information

#### **11.1. Information on toxicological effects**

Acute toxicity (oral)	: Not classified
Acute toxicity (dermal)	: Not classified
Acute toxicity (inhalation)	: Not classified
Skin corrosion/irritation	: Not classified
Serious eye damage/irritation	: Not classified
Respiratory or skin sensitization	: Not classified
Germ cell mutagenicity	: Not classified
Carcinogenicity	: Not classified
Reproductive toxicity	: Not classified
STOT-single exposure	: Not classified
STOT-repeated exposure	: Not classified
Aspiration hazard	: Not classified
Viscosity, kinematic	: 46 mm²/s @ 40°C
Symptoms/effects	: Not expected to pres

Not expected to present a significant hazard under anticipated conditions of normal use.

Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

: The product is not considered harmful to aquatic organisms or to cause long-term adverse effects in the environment.		
lic Fluid		
> 100 mg/l		
> 100 mg/l		
12.3. Bioaccumulative potential		
No additional information available		

13.1. Disposal methods				
Regional legislation (waste)	: Disposal must be done according to official regulations.			
Waste treatment methods	: Dispose of contents/container in accordance with licensed collector's sorting instructions.			
Sewage disposal recommendations	: Disposal must be done according to official regulations.			
Product/Packaging disposal recommendations	: Avoid release to the environment. Dispose in a safe manner in accordance with local/nationa regulations.			
Additional information	: Clean up even minor leaks or spills if possible without unnecessary risk. Do not re-use empty containers.			
Ecology - waste materials	: Avoid release to the environment.			

In accordance with DOT	
14.1. UN number	
DOT NA No	: Not regulated
14.2. UN proper shipping name	
Proper Shipping Name (DOT)	: Not regulated
14.3. Transport hazard class(es)	
<b>DOT</b> Transport hazard class(es) (DOT)	: Not regulated
14.4. Packing group	
Packing group (DOT)	: Not regulated

**SECTION 14: Transport information** 

#### Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

#### 14.5. Environmental hazards

#### Other information

: No supplementary information available.

#### 14.6. Special precautions for user

#### DOT

#### Not regulated

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable

#### **SECTION 15: Regulatory information**

#### 15.1. US Federal regulations

Commercial status of components according to the United States Environmental Protection Agency's Toxic Substances Control Act (TSCA):

Name	CAS-No.		Commercial status	Flags
LUBRICATING OILS (PETROLEUM), CLAY- TREATED SPENT	64742-50-3	Present	Active	

15.2. International regulations

#### CANADA

#### LUBRICATING OILS (PETROLEUM), CLAY-TREATED SPENT (64742-50-3)

Listed on the Canadian DSL (Domestic Substances List)

#### **EU-Regulations**

No additional information available

#### National regulations

#### LUBRICATING OILS (PETROLEUM), CLAY-TREATED SPENT (64742-50-3)

Listed on INSQ (Mexican National Inventory of Chemical Substances)

#### 15.3. US State regulations

No additional information available

#### **SECTION 16: Other information**

According to Federal Register / Vol. 77, No. 58 / Revision date	Monday, March 26, 2012 / Rules and Regulations : 7/5/2023
NFPA health hazard	: 1 - Materials that, under emergency conditions, can cause significant irritation.
NFPA fire hazard	: 2 - Materials that must be moderately heated or exposed to relatively high ambient temperatures before ignition can occur.
NFPA reactivity	: 0 - Material that in themselves are normally stable, even under fire conditions.
Hazard Rating	

: 1 Slight Hazard - Irritation or minor reversible injury possible

Health

0

### Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Flammability	: 1 Slight Hazard - Materials that must be preheated before ignition will occur. Includes liquids, solids and semi solids having a flash point above 200 F. (Class IIIB)
Physical	: 0 Minimal Hazard - Materials that are normally stable, even under fire conditions, and will NOT react with water, polymerize, decompose, condense, or self-react. Non-Explosives.
Personal protection	: B - Safety glasses, Gloves
Safety Data Sheet (SDS), USA	

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.
